

SECURESTRUX

Securing Data | Building Trust

ABOUT US

SecureStrux, LLC is a Women-Owned Small Business (WOSB) that provides specialized cybersecurity services in the areas of compliance, vulnerability management, cybersecurity strategies, and engineering solutions.

Our mission is simple: we improve the security of our customers' networks, provide decision makers with expert advice in cyber compliance, and deliver quality and unparalleled service with every engagement.

We are looking for industry experts to join our team of dedicated professionals to help our customers remain compliant with DoD, Federal, and commercial cyber governance across a variety of disciplines. We support both CONUS and OCONUS operations, and deliver results that exceed expectations for clients who rely on mission-critical cybersecurity services.

CORE VALUES

SecureStrux, LLC is rooted in these core values:

Create Team Synergy

+Promoting collaboration, Support and empathy to ensure team success

Drive Continuous Innovation

+Constantly seek new ways of doing things, learn from experiences share successful approaches

Deliver with Integrity

+Performing consistent and reliable work to the highest standard

We hire and promote based on our team members ability to achieve our core values and spread them to the others that they work with.

"When I needed time off to help my dad recover from open heart surgery over the holidays, the team did not hesitate to work around my schedule so I could attend to my family's needs. Not only were they supportive in divvying up the priority workload in my absence, but I was also greeted with a fine box of candies upon my return home! SecureStrux really cares about their people and puts families first."
